Dinner Party Planning Information

When planning a menu, you may choose up to four or five items to offer your guests. You may mix and match from the different price ranges. We will print a personalized menu with your menu heading.

If you need separate checks, we ask that you inform all of your guests that the processing time takes longer and will delay the delivery of the checks and pay out procedures. With the party menu most of them know exactly how much they owe in advance unless they order alcohol or desserts. If they know exactly how much their meal will be in advance they can bring personal checks or the right change and just leave it on the table and be on their way without having to wait for the server to collect.

Due to staffing, setup, and food preparation; we require that an accurate guest count be given 24 hours before the function. We allow for a 10% variance and charge \$10.00 per person if the actual number of guests is less than your 10% allowed variance.

If you have any questions please do not hesitate to call Wanda Thompson. She is available most every day. If she is not, you may speak with Sherry, Charlotte, or Joe.
